

# Prop 39 Education Protection Act (EPA) Funding

Fund	Amount
01 Newcastle Elementary	177,191
04 Harvest Ridge	626,247
09 Newcastle Charter School	389,739

EPA funding is a sub-group of the State Aid calculation process and stems from the passage of Prop 30 back in 2012. It is not add-on revenue, but instead is deducted from total State Aid due (less local property taxes) and assigned a separate resource (1400) for tracking purposes by the State. This portion of State Aid, designated as EPA funding, is budgeted for certificated teacher salaries for all school sites and charter schools to stay in compliance with Prop 30 requirements. *EPA funding stream is due to sunset in 2016 based on current legislation.*
