

Dear Students and Families,

This letter is a reminder of how classes will start tomorrow (Friday). Online learning begins at 8:00 am. Please login and be ready before 8:00. During technology roll-out, the bags included a bright green paper showing usernames and passwords. Please connect your device to your Wifi before logging into your computer. Also sent home was a paper showing instructions on how to access Google Classroom. Once there, your teacher will invite you to a video or have instructions for you.

In a typical school year, much of the first week is spent orienting students to the learning environment and teaching expectations. You will see this reflected in a virtual learning environment as well. Teachers will help orient students to their computers, distance learning, and building relationships. As the days go on, the workload will build. Please know that information for Music, Spanish, and PE will be distributed next week. Additionally, we realize that technical issues may cause problems as well. If you need tech support on a school-issued device, please email: support@newcastle.k12.ca.us

Lastly, if you have not accessed our [Parent Portal](#) yet, please use this to update contact information and complete back-to-school packets.

We look forward to “seeing” you at school!

Go Knights!

-Dave Cory

Principal
